With contributions from an international team of eighty leading experts and pioneers in the field, Production of Plasma Proteins for Therapeutic Use presents a comprehensive overview of the current state of knowledge about the function, use, and production of blood plasma proteins. In addition to details of the operational requirements for the production of plasma derivatives, the book describes the biology, development, research, manufacture, and clinical indications of

Certificate of Registration

This Certificate issued under the seal of the Copyright Office in accordance with title 17, *United States Code*, attests that registration has been made for the work identified below. The information on this certificate has been made a part of the Copyright Office records.

Registration Number
TX 7-651-619

Effective date of registration:

January 22, 2013

Title

Title of Work: Production Of Plasma Proteins For Therapeutic Use, Edited by Joseph Bertolini [et al] (9780470924310) 3

Completion/Publication

Year of Completion: 2012

Date of 1st Publication: December 14, 2012

Nation of 1st Publication: United States

International Standard Number: ISBN 9780470924310

Author

■ **Author:** John Wiley & Sons, Inc.

Author Created: compilation, Preface, editing of individual contributions

Work made for hire: Yes

Domiciled in: United States

Copyright claimant

Copyright Claimant: John Wiley & Sons, Inc.

111 River Street, Hoboken, NJ, 07030, United States

Limitation of copyright claim

Material excluded from this claim: Some material previously published

New material included in claim: compilation, Preface, editing of individual contributions

Certification

Name: Jennifer Peters

Date: January 17, 2013
